SMART SOLVENT RECOVERY
AND REPURIFICATION

TEDIA RE:SOLV IS THE SMART, SUSTAINABLE CHOICE FOR SOLVENT RECOVERY AND REPURIFICATION

SUSTAINABILITY

By reclaiming your solvent streams, Tedia re:solv minimizes environmental impact and supports your sustainability goals.

PURITY AND PERFORMANCE

Our advanced purification systems upgrade solvents and help meet the needs for critical applications in pharmaceuticals and other high-precision industries.

SUPPLY CHAIN SECURITY

Supply chains can be complex and volatile. Tedia re:solv provides a reliable and cost-effective alternative to purchasing virgin solvents.

COST SAVINGS

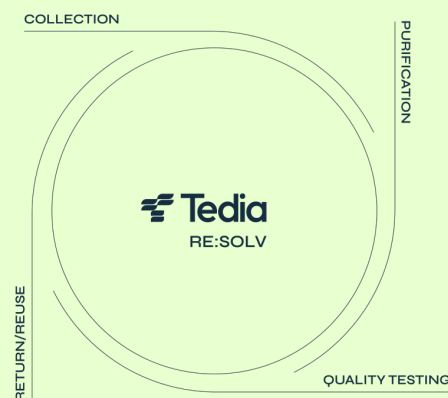

Recovering and reusing solvents in sensitive and complex workflows improves process efficiency and lowers overall operational expenses.

WHY PARTNER WITH TEDIA?

Tedia provides ultra-high purity solvents to its partners in critical scientific industries, with a forward-thinking strategic approach to the process at every scale. We offer the broadest portfolio of UHP solvents on the market with an unmatched level of purity and reliability, and the flexibility to deliver it to suit in bulk or at the bench. After 50 years in the industry, we continue to push the bounds of what comes next.

FOUR KEY STEPS:

COLLECTION

Once reclaimed solvent meets MOQ and fits criteria for recovery, the chemical is shipped to Tedia HQ in Fairfield, Ohio

PURIFICATION

With over 50 years of proven industry performance, we've set the standard for purification—delivering excellence at every step of the process

QUALITY TESTING

Our robust qualification processes assure unrivaled level of quality and consistency in our products

RETURN/REUSE

Solvent is packaged in bulk tankers, Recyclainers, drums or bottles and returned to customers
