Subject – COVID-19 Tedia Status and Monitoring

Safety is the highest priority for Tedia. We have implemented measures to help prevent spread of the virus and protect the health of our employees. Measures implemented include working from home where possible, adhering to recommended social distancing measures within our facility, utilizing proper PPE, and complying with recommendations published by the World Health Organization. <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public>

Governor of Ohio Dewine announced an Executive Order for all Ohioans to shelter-in-place. The order indicates that except for essential businesses, individuals should observe very strictly the order to stay at home. The order is in effect from 11:59pm March 22 through 11:59pm April 6 and may be extended.

Tedia is clearly an “essential business” under the definition put forth by the State of Ohio under Section 12v. During this challenging time, Tedia and other essential businesses are called on to continue to operate & fulfill their responsibility as important parts of the solution to support all companies and individuals working to resolve this urgent public health situation.

Tedia is committed to continued service to our customers and our ongoing commitment to delivering product to meet customer requirements. At this time, we remain well supplied with raw materials for contracted and forecasted customers. We will continue to monitor and evaluate policies above and provide notification of any changes throughout the COVID-19 situation.

Please contact us at sales@tedia.com or customerservice@tedia.com for questions or ordering.

Thank you for your patience. Please take care of yourself and others.

Sincerely,

Hoon Choi
President
Tedia Company, Inc.
